

1. Usage and basic fees

1.1. Usage fee

	€/m ³ , VAT 0 %	€/m ³ , VAT 25,5 %
Water	1,54	1,93
Waste water	2,68	3,36
Total	4,22	5,30

In addition to the basic fee, a fee of EUR 1,67 m³ + EUR 0,43 (VAT 25,5%) = EUR 2,10/m³ will be charged for temporary water, measured with a temporary water meter or according to the estimated use. If a fire hydrant meter has been damaged during use, the repair costs of the meter and the final readings of the meter plus 100 m³ as a usage fee will be invoiced.

2. Fees related to connecting to the network

2.1. Connection fee

A connection fee will be charged when a property is connected to the water supply and/or sewer network. The amount of the fee depends on the type of the property and the permitted building volume of the plot. A connection fee may also be charged after the connection agreement has been concluded if an existing building on the property is extended, a new building is constructed on the property, or a new connection is made to an existing building. A connection fee calculation can be requested from the number +358 3 5656 3650 or vesi.karttapalvelu@tampere.fi. The connection fee is based on the price list in effect at the time the water service agreement is made. For example, for a detached house under 250 m², the connection fee for water is €2,700.00 (VAT 0%) = €3,388.50 (including 25.5% VAT), and for wastewater €2,700.00 (VAT 0%) = €3,388.50 (including 25.5% VAT), making a total of €5,400.00 (VAT 0%) = €6,777.00 (including 25.5% VAT). There is a calculator for calculating the average connection fee available on the Tampere Water website. In addition to the connection fee, the property owner must take into consideration a separate construction cost arising from the installation of on-site service lines.

2.2. Construction of service lines for detached houses in a shared trench up to the water meter in a new residential area

	EUR/month, VAT 0%	EUR/month, VAT 25,5 %
Service lines	3 300,00	4 141,50

2.3. Construction of service lines for detached houses, row houses, apartment buildings, and industrial plots

If service lines have not been installed up to the water meter during new construction, the property owner may have them installed by Tampere Water based on a quotation or arrange for another contractor to carry out the work. Service lines must be constructed in accordance with a written and approved quotation. Excavation work for water and sewer lines is performed by the builder's contractor. Connection work to the main network and to the property's internal water supply network is always carried out by Tampere Water as a chargeable service.
